Beechcraft King Air Maintenance Manual

The Beechcraft King Air is a line of American utility aircraft produced by Beechcraft. The King Air line comprises a number of twin-turboprop models that have been divided into two families. The Model 90 and 100 series developed in the 1960s are known as King Airs, while the later T-tail Model 200 and 300 series were originally marketed as Super King Airs, with the name "Super" being dropped by ...

2016 Beechcraft King Air 250 for sale

The King Air 260 turboprop standard IS&S ThrustSense Autothrottle system reduces pilot workload through all phases of flight and features protections for engine over-temp and over-torque scenarios. Now including digital pressurization controlled through the Flight Management System, cabin pressure manual control is a thing of the past.

The Beechcraft T-34 Mentor is an American propeller-driven, single-engined, military trainer aircraft derived from the Beechcraft Model 35 Bonanza. The earlier versions of the T-34, dating from around the late 1940s to the 1950s, were piston-engined. These were eventually succeeded by the upgraded T-34C Turbo-Mentor, powered by a turboprop engine. The T-34 remains in service more than seven ...
