The way that we talk to our children becomes their inner voice. Think about when your kids make a poor decision... they spill milk on their homework (when they aren't supposed to be eating or drinking near it), they break your favorite picture frame (when they shouldn't be throwing a ball in the house), they don't clean up their room ...

Department of Education WA - Department of Education

The critical inner voice is not a conscience or a moral guide. What most distinguishes the inner voice from a conscience is its degrading, punishing quality. Its demeaning tone tends to increase our feelings of self-hatred instead of motivating us to change undesirable actions in a constructive manner. Challenging your Critical Inner Voice

More specifically, we found that when people who are generally more grateful gave more money to a cause, they showed greater neural sensitivity in the medial prefrontal cortex, a brain area associated with learning and decision making. This suggests that people who are more grateful are also more attentive to how they express gratitude.
