Aquarium Heaters, Chillers & Thermometers. Temperature regulation systems are essential for most aquariums, as fish are cold blooded and need a consistent water temperature for their health and wellness. Alongside your aquarium heater or chiller, it's important to use an aquarium thermometer to make sure the temperature is just right. If you have a large tank, you may need multiple smaller ...

A keg, or half-barrel is a 15.5 U.S. gallon vessel. A quarter-barrel has a volume of 7.75 U.S. gallons. Generally a keg is a vessel smaller than a barrel; thus, it is 30 gallons or smaller. In the U.S. the terms half-barrel and quarter-barrel are derived from the U.S. beer barrel, legally defined as being equal to 31 U.S. gallons (this is not the same volume as some other units also known as ...
